Other stuff Weyermann Vienna Malt

Bittering hop Crystal

Flavour hop Crystal

Aroma hop Crystal

Dry hop Crystal

Yeast Safale K97

Gen An Imperial Kölsch isn't something you see every day so we thought we'd give it a go! "Imperialising" beer is a US fad where normal beers have their ABV (and also hop rate) ramped up which is what we did to our Ersatz Kölsch. We used only US Crystal hops which, being relatives of both Cascade and Hersbrucker, give a noble hop flavour with overtones of tangerines and orange zest.

We know what hops are for...
